

Use Case Information - Vote in monthly book poll

Use Case Information

Use Case ID: UC-03

Primary Actor: Club Member

Preconditions

1. The Club Member has an active account on the platform.
2. The monthly book selection poll is active, i.e, has not closed yet.
3. The poll contains at least two different books to choose from.
4. The Club Member has not cast their vote yet

Postconditions

Success:

1. The Club Member's choice receives a vote
2. The system registers the vote as cast by the Club Member
3. The counter of votes of the book chosen by the Club Member increments by 1
4. The display of the count of votes per the chosen book is updated with the new value
5. The Club Member is prevented from casting another vote in the same monthly poll

Failure:

1. No additional vote is recorded as cast by the Club Member if the Club Member has already voted
2. The existing vote count on the chosen book remains the same
3. The Club Member is notified that a duplicate vote cannot be cast

Main Success Scenario:

1. The Club Member opens the monthly poll
2. The Club member is able to view the list of all books which are provided as options
3. The Club Member selects a book as their choice of the month
4. The Club Member submits the vote
5. The system checks if the Club Member has already cast their vote in the current poll or not
6. The system records the vote cast by the Club Member
7. The Club Member gets a success message upon the submission of the vote
8. The Club Member's profile is updated with the information of them having cast the vote
9. The system updates the total count of votes against the chosen book
10. The system prevents the Club Member from casting another vote in the same poll
11. Use Case ends successfully

Alternate Flow:

4a. Club Member has already voted

- 4a1. The system checks if the Club Member has voted before, and the result is yes
- 4a2. The system rejects the vote cast the second time by the Club Member
- 4a3. The Club Member receives a message saying that the vote has already been cast on the present monthly poll, and a duplicate vote cannot be cast
- 4a4. The system does not increment the number of votes against the book chosen the second time
- 4a5. Use Case ends without recording the duplicate vote
