| Req ID | Type       | Description                                                                                                                                                               | Priority | Acceptance<br>[PASS]                                                                                                                                            | Rejection<br>[FAIL]                                                                                  | Rationale                                                                                                                                        |
|--------|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| FR-001 | Functional | The system shall hide content inside spoiler-tagged discussion comments until the user explicitly clicks to reveal or marks that chapter as read.                         | High     | Spoiler text masked with blur filter                                                                                                                            | Spoiler content exposed in search preview                                                            | Protects the users from accidentally reading ahead of time and spoiling their reading experience                                                 |
| FR-002 | Functional | The system shall maintain the number of pages set as the goal by the club member to be read in the month and will verify if the goal was reached at the end of the month. | High     | Goal marked as achieved at the end of the month when the target number of pages have been read by the club member, and the member's reading status gets updated | The status fails to get updated, and the system marks an achieved goal as unachieved, or vice versa. | This is the core functionality of the system which is used to track the personal reading goals, and will keep the club members motivated to read |

|               |            |                                                                                                                                                        |        |                                                                                                                                      |                                                                                                                                                                                                |                                                                                                                                                           |
|---------------|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|--------|--------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>FR-003</b> | Functional | The system shall allow the club members to vote in the monthly voting polls section for selecting the next book for the monthly challenge.             | High   | Each valid vote increments the counter of the selected book and no further votes can be cast by that club member.                    | The club member can cast more than one vote in the same monthly poll for the same book, or for multiple books in the same poll, or the club member can cast a vote even after the poll closes. | Enables the club members to collectively select the book to be offered as the monthly challenge, thus channeling the spirit of the community effectively. |
| <b>FR-004</b> | Functional | The system shall allow the club members to participate in discussion threads where they can offer opinions and reviews about the books they have read. | Medium | The review posted by the club member gets logged in the thread, and other club members can see it and interact with it via replying. | The review posted by the club member is not posted and visible to the other members, or the discussion thread itself is not visible to the club members.                                       | This functionality allows the community to collectively share opinions about a book and discuss the contents of the book.                                 |

|                |                                                 |                                                                                                                          |        |                                                                                                                                                                       |                                                                                         |                                                                                                                  |
|----------------|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|--------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>FR-005</b>  | Functional                                      | The system shall allow the Discussion Lead to create discussion threads for the books which include spoiler tags.        | Medium | The Discussion Lead creates a discussion thread for a particular book title, and can give the option to select spoiler tags for the review messages, which will apply | The Discussion Lead cannot create the thread, or cannot enable the spoiler tags option. | This enables the regulation of discussion threads, and ensures that the spoiler tags are enabled.                |
| <b>NFR-001</b> | Nonfunctional<br>[Type: Performance & Security] | Monthly poll voting results must prevent duplicate votes using user session verification and update tallies in real-time | High   | Benchmarking tests confirm target latency and security standards under simulated peak load.                                                                           | A duplicate vote is recorded and displayed                                              | Duplicate vote attempts are rejected, the updated vote tally is disallowed and updated correctly in the database |

|                |                                         |                                                                                                                                                                 |        |                                                                                                                          |                                                                                    |                                                               |
|----------------|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|--------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|---------------------------------------------------------------|
| <b>NFR-002</b> | Nonfunctional<br>[Type:<br>Performance] | The system must load the club member's dashboard which contains the reading progress, discussions and polls within 5 seconds under normal operating conditions. | Medium | The dashboard loads completely under 5 seconds for at least 95 of the 100 defined test cases under normal operating load | More than 5 of the 100 defined test cases exceed 5 seconds to load the dashboard . | Makes the interface responsive, improving the user experience |
|----------------|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|--------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|---------------------------------------------------------------|
